

The Westborough Public Schools

ADDENDA 2

Invitation for Bids

Safer Teachers, Safer Students: SARS-CoV-2 Screening Testing Pilot Program

- Q. The IFB states that Bidders must supply a list of subcontractors and specific services outsourced to be used during the contract, if applicable. Is there a format that this subcontractor list should follow? Can you advise whether the District would like any information beyond subcontractor name and services to be provided?
- A. Information beyond subcontractor name and services provided would include their credentials and licenses.
- Q. Can you advise if the District has a preferred process/format for obtaining consent for student testing from parents and guardians? We have created different consent processes with other organizations - via email, internal communication tools like Aspen, or paper-based forms - but it would be helpful to understand whether the District has a preferred methodology for this pilot program.
- A. At this point Westborough Public Schools I does not have a preference. Most likely there will be a need for a combination of online, an email with a link to forms and paper.
